## Foreword

Safeguarding certification by ACSL is an independent recognition that a religious entity and its ministries meet the requirements of the National Catholic Safeguarding Standards. Certification achievement is measured against the National Catholic Safeguarding Standards set by the Australian Catholic Bishops Conference and Catholic Religious Australia as the minimum benchmark for providing a safe Church for everyone. Compliance with the Standards is demonstrated through an independent assessment.

NCSS Certification:

- Provides independent recognition that the religious entity is committed to safeguarding.
- Fosters a culture of quality and continuous improvement.
- Reduces and mitigates safeguarding risks.
- Provides the community with confidence that the Church is taking action to address past abuse.
- Fosters a systematic approach to safeguarding quality and performance.
- Increases capability and safeguarding capacity.
- Complies with regulatory requirements, and, where relevant, established canonical requirements.

The following report is based on an independent assessment of The ISMAPNG (ISMAPNG) performance against the National Catholic Safeguarding Standards. The report includes compliance level ratings for each standard, criteria, and indicator, and includes explanatory notes for key findings.

The information contained in this report is based on evidence provided by ISMAPNG and its representatives at the time of the assessment and where applicable any further subsequent information ISMAPNG have supplied through the reporting process.

Certification issued by ACSL and/or its accredited auditors relates to safeguarding practices. It does not guarantee the safety, quality or acceptability of a participating organisation, its services or programs, or that legislative and funding requirements are being, or will be, met for other purposes.

# 1. Executive Summary

## 1.1 Context

Australian Catholic Safeguarding Ltd (ACSL) was established in 2020, to bring together the work of Catholic Professional Standards Ltd, the Australian Catholic Centre for Professional Standards and the Australian Catholic Ministry Register. ACSL is a company limited by guarantee, whose membership is composed of the Australian Catholic Bishops Conference, Catholic Religious Australia, and the Association of Ministerial Public Juridic Persons.

ACSL is committed to fostering a nationally consistent culture of safety and care throughout the Catholic Church in Australia. This includes providing a range of services to support the implementation of the National Catholic Safeguarding Standards (NCSS), a framework for the protection and care of children and adults at risk. ACSL maintains the NCSS, undertakes audits and reviews of Church entities, and publishes reports which demonstrate a Church entity's commitment to the NCSS.

ACSL's core values are leadership, integrity and compassion. These values guide the way we work and inform cultural change within the Catholic Church and the wider community. We take our duty to care for and protect all children and adults at risk seriously and have zero tolerance for abuse of any kind.

The Australian Human Rights Commission released the National Principles for Child Safe Organisations (the National Principles). The National Principles are derived from the Child Safe Standards recommended by the Royal Commission into Institutional Responses to Child Sexual Abuse (the Royal Commission) which relate specifically to child safety. The Office of the Children's Guardian considers that organisations in NSW that are implementing the National Principles will be simultaneously implementing the Child Safe Standards.

The NCSS give effect to the National Principles and are the way that the Catholic Church is responding to the recommendation of the Royal Commission that religious organisations adopt and implement the Child Safe Standards. The NCSS are designed to contextualise the National Principles and Child Safe Standards to the Catholic Church in Australia. For more information about the NCSS please see: [National Catholic Safeguarding Standards - Australian Catholic Safeguarding Ltd \(acsltd.org.au\)](https://acsltd.org.au).

This audit report includes the results of the assessment against the NCSS for the Trustees of the Institute of the Sisters of Mercy of Australia and Papua New Guinea (ISMAPNG).

## 1.2 Background

The history of the Institute begins in Ireland on December 12, 1831, when Catherine McAuley and two companions, Anna Maria Doyle and Elizabeth Harley, professed their vows and became the first Sisters of Mercy. In 1846, just five years after Catherine's death, the Sisters of Mercy had established a foundation in Perth, Western Australia and soon thereafter foundations and communities of Sisters of Mercy spread throughout Australia. In 1956, the first Sisters of Mercy in Papua New Guinea arrived in Goroka, from Australia.

In 1905, the Australian Bishops urged congregations of common origin to unite so that their capacity for the vital work of Catholic education, as well for as other ministries would be strengthened. There had been several movements towards unity for the various Mercy congregations in Australia, a most significant step in this direction occurred with the creation of the Institute of the Sisters of Mercy of

Australia (ISMA) on December 12, 1981. For thirty years, ISMA, which encompassed the 17 independent Australian Congregations of Sisters of Mercy and the Autonomous Region of Sisters of Mercy in Papua New Guinea (PNG), engaged fruitfully in God's mission.

In December 2011, the congregations of Adelaide, Ballarat East, Bathurst, Cairns, Goulburn, Grafton, Gunnedah, Melbourne, Perth, Rockhampton, Singleton, Townsville, West Perth, Wilcannia–Forbes, and the autonomous region of PNG, came together as one new congregation, to be known as **Institute of Sisters of Mercy of Australia and Papua New Guinea (ISMAPNG)**.

There are approximately 540 sisters who are members of ISMAPNG and the Institute employs over 100 staff operating from six offices and locations, including Sydney, Melbourne, Perth, Canberra, Adelaide and Brisbane. The Institute Leader and her Council (five Sisters in total) form the leadership team of the Institute, and are supported by a community leadership team in each of the eight communities, an Executive Director and professional services staff.

ISMAPNG was first audited by ACSL in 2020. This audit assessed compliance with NCSS Edition 1, which focused primarily on child safeguarding. It included the ministries of Mercy Works Ltd, including Mercy Works Limited PNG; McAuley Ministries Ltd; Catherine McAuley Services Ltd; and Mercy Associates.

The audit findings indicated that ISMAPNG had fully implemented or substantially progressed 92% of NCSS indicators relevant to their ministries, while 4% of NCSS Indicators were in the initial stage of development and 4% of NCSS Indicators were yet to be addressed. Prior to the commencement of the NCSS Edition 2 audit which includes the safeguarding considerations of adults at risk, ISMAPNG had implemented all recommendations of the previous audit.

### 1.3 Audit classification

ISMAPNG been assessed by ACSL as a Church entity requiring a full NCSS audit, because of the range of activities still being undertaken by the Institute, even though several ministries have been incorporated into a MPJP in 2021. Most ministries audited in 2020 were excluded from the 2025 audit which addressed the 10 NCSS Standards V2, 48 NCSS Criteria and 104 NCSS Indicators and consideration of adults at risk. For further details of the risk-based audit framework, refer to the [ACSL website](#).

Our assessment of ISMAPNG's maturity in meeting the NCSS indicators is detailed in Section 2 of this report. Our recommendations for improvement, including ISMAPNG management responses, are included in Section 3 of this report.

The full audit report is also publicly available on the Publications and Reports page of the [ACSL website](#).

### 1.4 Audit approach

The purpose of the NCSS is to build a culture of shared responsibility for safeguarding and to ensure that policies, practices, and codes of behaviour work together to prevent, detect, and respond appropriately to potential or actual incidents of child abuse.

The National Catholic Safeguarding Standards are interrelated and interdependent. They work together to ensure every entity, ministry, and organisation across the Catholic Church in Australia places the safety of children and adults at risk at the core of how they plan, think and act. The 10

Standards are grouped into four capability areas that relate to common safeguarding principles. These capability groupings and how they work together holistically are represented below:

The audit processes ACSL has undertaken are intended to provide reasonable assurance that safeguarding controls have been designed appropriately and are operating effectively. Therefore, this report provides a point-in-time assessment of the safeguarding practices implemented by ISMAPNG and the extent to which they meet the requirements of the NCSS.

ASCL audit processes integrate The International Standards for the Professional Practice of Internal Auditing (IIA Standards) developed by the Global IIA and followed by all IIA members in Australia. These Standards include principles and requirements for undertaking professional and internal auditing and for evaluating internal audit performance.

ASCL utilises an efficient risk assessment mechanism that permits its auditors to focus their efforts on risks that are proportionate to the purpose, size, complexity, and structure of a Church Authority. This approach to planning audits ensures optimum use of the Church Authority's limited resources, has maximum impact on the activities, ministries, and parishes, and ensures constant stakeholder engagement. It is also congruent with the IIA Standards.

ASCL assesses the risk management safeguarding practices of a Church Authority through a multilayered system keeping in mind IIA Standard 2010.A1 which states: *"The internal audit (here meaning the Church Authority) activity's plan of engagements must be based on a documented risk assessment, undertaken at least annually. The input of senior management and the board must be considered in this process."* ACSL can thus provide objective assurance that the Church Authority is

complying with the risk management components of the National Catholic Safeguarding Standards (NCSS).

## 1.5 In scope assessment

In this audit, the ISMAPNG was assessed against Edition 2 of the NCSS, covering both children and adults at risk. In July 2025, ACSL completed a review of ISMAPNG' NCSS Self-Assessment report, where evidence of congruency with the NCSS was provided. Fieldwork visits of ministries and activities were conducted in August 2025. This report was completed in September 2025.

The audit scope included:

- Audit activities at the Institute's administrative centre.
- Interviews, observations, and enquiry with the Institute and ministry leadership, including their Safeguarding Committee and relevant ministerial personnel.
- A review of key safeguarding documents, policies, and procedures.
- Assessment of the design and testing of the operation of safeguarding controls implemented by the ministries across the entity.
- Site visits to Administrative Centre, Stanmore, NSW and Mercy Centre, Alphington, VIC
- Interviews with over 30 personnel –religious, volunteers and people in paid roles, Young Mercy Links and McAuley Ministries Ltd.

## 2. Overarching findings

*The NCSS assessment of the ISMAPNG indicates that the Institute is strongly committed to safeguarding and is successfully implementing and embedding a culture of safeguarding throughout its organisation.*

ACSL assessment of the implementation of NCSS indicators by a Church Authority has been determined using a four-point maturity scale<sup>1</sup>.

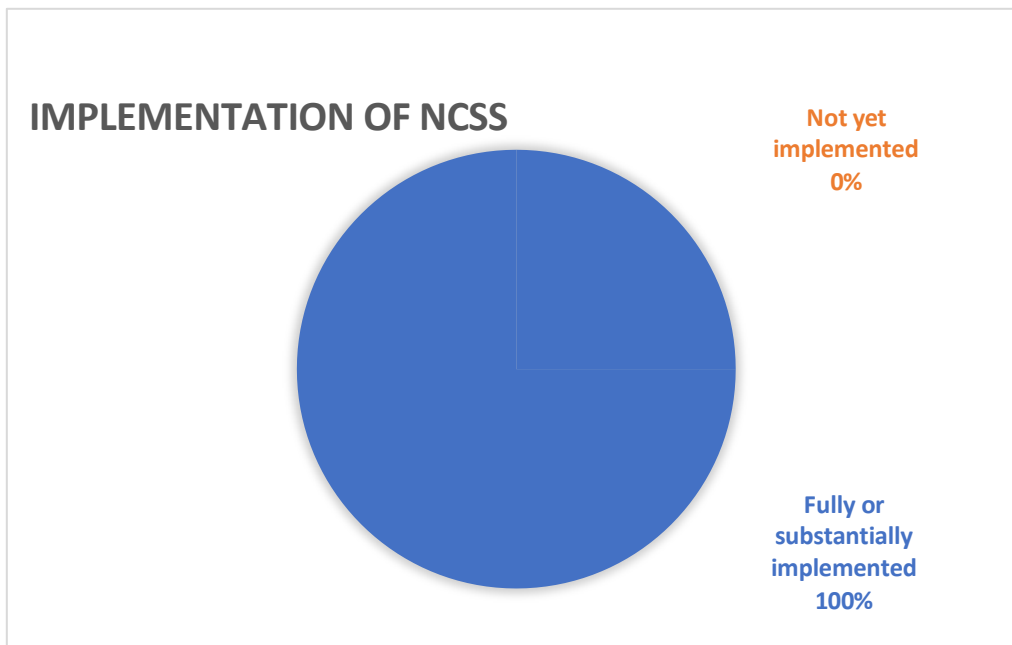

Our assessment indicates that ISMAPNG has fully implemented or has substantially progressed in the implementation of 100 (100%) of the relevant indicators to their operations. Assessment for each maturity scale is as follows:

- 94 (94%) indicators are developed and embedded
- 6 (6%) indicators are substantially progressed.

100 of the 104 NCSS indicators applicable to full audited Church Authorities are relevant to ISMAPNG operations.

### Note on scoring:

- If an indicator is assessed as **'developed and embedded'** or **'developed'**, it means the implementation is **fully or substantially progressed** — so the indicator will be **counted as implemented**.
- If an indicator is assessed as **'developing'** or **'yet to develop'**, it means the implementation is **not substantially progressed**, so the indicator will be **counted as not implemented**.

The key findings from the audit are summarised by NCSS capability below

---

<sup>1</sup> Refer Appendix A for definitions of the maturity scale used for the Compliance Assessment.

### Capability Area: Leadership, monitoring and improvement (Standards 1 and 9)

The focus in Standards 1 and 9 is on how ISMAPNG influences and implements a positive safeguarding culture across its ministries. These NCSS Standards expect ISMAPNG leadership personnel to display strong safeguarding direction that includes an accountable and transparent governance structure within their ministry activities. The audit assessed safeguarding policies, procedures and processes to understand how a zero-tolerance approach to abuse is implemented and how all people (children and adults) are provided a safe environment, free from abuse and discrimination.

ISMAPNG governance includes activities in Papua New Guinea. ISMAPNG self- assessment included a response on how these ministries are embedding a culturally appropriate safeguarding practices that align with the [Universal Guidelines Framework](#) (UGF). This Framework builds on Child Safe Principles while reflecting that there are different judicial, legal and cultural considerations and protocols that need to be acknowledged as part of safeguarding approaches. In Papua New Guinea, the legal framework for child protection is the *Lukautim Pikinini Act 2015* with some aspects considered under the *Family Protection Act 2013*.

The ISMAPNG Code of Conduct is consistently referenced, inclusive and tailored to diverse needs, including accessibility for aging communities and culturally diverse groups. The ISMAPNG Safeguarding Policy on the website was last updated in July 2021, highlighting a need for regular review and updating to ensure alignment with current standards and safeguarding practices.

The audit also assessed the awareness of ISMAPNG personnel’s safeguarding responsibilities. In the fieldwork visits and interviews, personnel consistently highlighted several Mercy values – *Mercy, Hospitality, Compassion and Justice* – as underpinning both their ministry role and the rationale for working in ministry. Personnel were able to offer examples of practices that demonstrate how these values permeate ISMAPNG leadership and how the different entities embed these values across their ministries or operations.

### Capability Area: Engaging with children, adults, families and communities (Standards 2, 3 and 4)

Within ISMAPNG, there are opportunities for everyone to be engaged in safeguarding discussions. There is widespread awareness of who to contact about safety, how to report concerns and contribute to conversations focused on safeguarding. ISMAPNG practices of inclusivity and raising awareness of the rights and dignity of adults at risk was evident in the fieldwork interviews. ISMAPNG safeguarding policies and procedures demonstrate awareness of the diverse circumstances that increase risk of abuse. Personnel demonstrated understanding of the importance of engaging adults at risk in decisions which affect them and acknowledged the diverse circumstances and backgrounds of adults at risk, particularly in relation to elder abuse and dementia.

### Capability Area: Right people, right role, right knowledge (Standards 5 and 7)

ISMAPNG has a stable personnel group, who have been in their role for several years. However, the Institute also has comprehensive recruitment policies and procedures that outline safeguarding requirements in its advertising, vetting and screening of personnel.

ISMAPNG has developed a comprehensive professional supervision program. This program includes various methods of supervision, including formal supervision agreements with accredited

supervisors, group supervision sessions, and reflective ministry circles established with the assistance of the community leaders.

This tiered approach to supervision caters for all Sisters, depending on their level of ministry and engagement with the community, and is an excellent example of a tailored and fit-for-purpose supervision program to meet the Institute's needs. The supervision program is also available for relevant staff.

ISMAPNG personnel who are engaged in ministry are critical to the success of implementing the ISMAPNG mission and the Institute is committed to ensuring that personnel have the skills, training and support to undertake their roles. The audit assessment of Standard 5 revealed ISMAPNG employment practices are underpinned by a strong safeguarding culture. Overall, there is consistency between current employment relations and best practice HR processes.

The audit findings also demonstrate an emphasis on safe recruitment, professional development, ongoing support, and supervision of personnel, which enhances risk mitigation.

The assessment of Standard 7 showed that ongoing ISMAPNG training focuses on the nature and indicators of abuse, particularly organisational abuse, and how to create safe environments. The Institute's self-assessment noted that training is planned to be offered to members in areas of the Code of Conduct and Complaints Policy. Other opportunities for training include building awareness and understanding of legal responsibilities, such as the role of nominated persons for enduring power of attorneys in different jurisdictions.

#### **Capability Area: Systems, Policies and Procedures (Standards 6, 8 and 10)**

The audit identified that ISMAPNG's processes for raising concerns and complaints are responsive, understood, accessible and used by children, adults, families, carers, communities and personnel. The audit assessment also noted that processes are formally documented in ISMAPNG policies and procedures, and they are made publicly available. However, in one ministry, we noted that whilst awareness exists of ISMAPNG commitment to zero-tolerance to abuse, the procedural steps and timelines for complaint resolution could be clarified.

ISMAPNG has few environments in which they conduct ministry, however considerations for physical risks within the provision of ministry (e.g. nature of physical spaces) is managed appropriately. The audit identified a strong understanding of safeguarding culture and practice evident through leadership engagement and empowering personnel to contribute to safeguarding processes and policy. Sound governance arrangements are in place to promote learning on risk assessments and management and there is a deep understanding of risk management and recordkeeping obligations (for example, preparation of incident reports and third-party engagement documentation).
